DATE: Effective Fall 2012

FROM: Accrediting Commission for Community and Junior Colleges, Western Association of Schools and Colleges

TO: All External Evaluation Team Members

SUBJECT: Implementation of New U.S. Department of Education Regulations
New Evaluation Team Responsibilities

The U.S. Department of Education (USDE) issued several new regulations for institutions and accreditors that became effective July 1, 2010, 2011 and 2012. These new regulations follow the Higher Education Opportunities Act of 2008, and also reflect the USDE’s continuing efforts to improve program integrity for its Title IV financial aid funds. Information about interpretation and implementation is still being disseminated to institutions and accrediting bodies.

The ACCJC requires External Evaluation Teams to follow specific procedures to demonstrate the Commission’s compliance with the federal regulations. The attached chart includes condensed references to the regulatory language and the procedures that evaluation teams must follow.

The federal formula for converting clock hours to credit hours is located in ACCJC’s “Policy on Institutional Degrees and Credits” in the Accreditation Reference Handbook.

Please incorporate this material for use during the External Evaluation Team Visit you will be conducting.
### ACCJC External Evaluation Team Responsibilities for Compliance with U.S. Department of Education (USDE) Regulations

**HEOA 2008 including 2010 and 2011 regulations interpreted through July 2012**

<table>

<tr>
<th>Paragraph of 34 C.F.R.</th>
<th>USDE Regulation and USDE Guidelines for 34 C.F.R. § 602, January 2012</th>
<th>Evaluation Team Task</th>
</tr>
</thead>
<tbody>
<tr>
<td>602.16(a)(1)(i)</td>
<td>Standards effectively address “success with respect to student achievement in relation to the institution’s mission,… including as appropriate consideration of course completion, State licensing examinations, and job placement rates.”</td>
<td>The institution must set standards for satisfactory performance of student success (student achievement and student learning). The evaluation teams examine the institution-set standards for student success and achievement and assess their appropriateness. Evaluation teams examine institution summary data on course completion rates, licensure pass rates where available, and job placement rates where available. The team also examines program/certificate completion data, and graduation data provided by the college. These data are examined in the context of the institution-set standards of satisfactory performance and goals for improvement of student success (student achievement and student learning). The evaluation team cites this information as evidence of the institution’s accomplishment of mission. The evaluation team report cites the use of this evidence in describing its evaluation of how well the institution fulfills its mission.</td>
</tr>
<tr>
<td>602.16(a)(1)(viii)</td>
<td>Standards effectively address the quality of the institution or program in: “ensuring that any awarded academic credits/degrees/credentials conform to commonly accepted practice including time invested and content mastered.”</td>
<td>The evaluation team will examine and evaluate the reliability and accuracy of the institution’s assignment of credit hours by reviewing the institution’s related policies and procedures and application of those policies and procedures to programs and courses. The evaluation team samples at least five course outlines and corresponding syllabi, and examines the class schedule, to determine that the institution has assigned an appropriate amount of work to conform to the Carnegie Unit, and this sampling must include:</td>
</tr>
<tr>
<td></td>
<td></td>
<td>- At least one distance education course</td>

(Standards I.B; I.B.1-6; II.A; II.A.1.c; II.A.2.a,b,f,g,h,I; II.A.5; II.A.6; ER 10-Student Learning and Achievement)
| As pertains to:                                                                 | If the institution converts clock hours to credit hours for purposes of federal financial aid, the institution adheres to the Department of Education’s 2011 conversion formula | • At least one classroom based course with a laboratory  
• At least one course that provides for clinical practice, if applicable to the institution  
• At least one class that converts clock hours to credit hours for purposes of awarding credit, if the institution does so.  

The evaluation team will examine institutional policies and procedures for measuring the program length and intended outcomes of degrees and certificates offered.  

The evaluation team will confirm the institution has transfer of credit policies that are publicly disclosed and that include a statement of the criteria regarding the transfer of credit earned at another institution of higher education.  

Since USDE regulations establish a minimum standard, and institutions may choose to include more work for their credit hours than the minimum amount, credit hours at one institution will not necessarily equate to credit hours at another institution for a similar program.  

The evaluation team will, in the External Evaluation Report narrative of its findings, cite the institution’s policy, procedure, class and program evidence examined.

And related |
prospective students.... (a)(6) the names of associations, agencies or governmental bodies that accredit, approve or license the institution and its programs and the procedures by which documents describing that activity may be reviewed under paragraph (b).”  (b) “the institution must make available for review to any student or prospective student upon request a copy of the documents describing an institution’s accreditation and its State, Federal or tribal approval or licensing.  The institution must also provide (those persons) with contact information for filing complaints with its accreditor and with its State approval or licensing entity and any other relevant State official or agency that would appropriately handle a student’s complaint.”

The evaluation team will examine the institution’s means of providing to any student or prospective student information about its accrediting bodies and governmental (usually state) licensing or approval bodies, copies of documents describing an institution’s accreditation or governmental approval, as well as contact information for filing complaints with such bodies. The team report will describe the institution’s compliance with this new requirement.

(ER 20 – Public Information)

The evaluation team will examine whether institutions make available to students located in states other than the institution’s home state, and receiving instruction from the institution (via distance education or correspondence education, or by other means) the contact information for filing complaints with the relevant governmental or approval body in that state in which the student is located.

602.17(f) The agency provides a detailed written report that assesses the institution’s compliance with the agency’s standards, including areas needing improvement AND the institution’s performance with respect to student achievement.

The evaluation team will examine student achievement data at the programmatic and institutional levels. The institution must set standards of satisfactory performance for student achievement, and evaluate itself against those standards, at the programmatic and institutional levels. The evaluation teams must examine the institution’s own analyses, and also determine whether the institution’s standards for student achievement are reasonable.

The examination will assess the institution’s performance with respect to the institution-set standards. The examination will be based upon data, and it will reference data cited above re 602.16, as well as other factors used by the institution. The External Evaluation Report will detail the institution’s
| 602.17(g) | Distance and Correspondence Education: During institutional reviews, the agency applies the definitions of "distance education" and "correspondence education" found in §602.3 to determine which mode of delivery is being employed. The agency requires institutions that offer distance education or correspondence education to have processes in place through which the institution establishes that the student who registers in a distance education or correspondence course or program is the same student who participates in and completes the course or program and receives the academic credit. The agency meets this requirement if it:

1. Requires institutions to verify the identity of a student who participates in a class or program by using methods such as:
   (i) A secure log in and passcode

   The evaluation team will review the manner in which the institution determines if a course is offered by distance education or correspondence education. The team will examine the delivery mode of a sampling of courses where students are separated from the instructors. The team must assess whether the courses are distance education (with regular and substantive interaction with the instructor, initiated by the instructor, and online activities are included as part of a student’s grade) or correspondence education (online activities are primarily “paperwork related,” including reading posted materials, posting homework and completing exams, and interaction with the instructor is initiated by the student as needed). Use of a learning management system alone will not determine whether the mode is distance education; course syllabi, grading policy, and actual instructional delivery determine how the mode is characterized for USDE purposes. The team will describe its findings and the team’s judgment of the appropriateness of institutional application of the USDE delivery mode definitions.

   The evaluation team will examine the efficacy of methods that the institution uses to verify the identity of students enrolled in distance education and correspondence education classes. The evaluation team will describe whether the institution uses the secure log in and password for its distance education classes. If the institution uses other methods for its distance education classes or correspondence classes, the evaluation team will describe those methods and the team’s judgment of their efficacy in preserving the integrity of the credits and grades awarded.

   (Standards II.A; II.A.1; II.A.2; II.A.2.c, d, e; II.A.7; II.B.1; II.B.2.c; II.A.3.a; II.C.1; Policy on Distance Education and on Correspondence Education) |
| 602.19 (a-e) | The agency must demonstrate that it has and effectively applies a set of monitoring and evaluation approaches that enable the agency to identify institutional strengths and stability. These approaches must include … collection and analysis of key data and indicators, including fiscal information and measures of student achievement. | Comprehensive evaluation teams must examine the institution’s longitudinal data on the institution’s fiscal condition, including significant increases or decreases in revenues and enrollments, and identify any team concerns about fiscal stability. Comments should be included in Standard III.D.

(Standards II.D; III.D.1.b, c, d; III.D.2.b,c,g; III.D.3; ER 17-Financial Resources; ER 18-Financial Accountability)

Comprehensive evaluation teams must examine the institution’s longitudinal data on student achievement (course completion, program/certificate completion, graduation, licensure, job placement data) and identify any team concerns about stability and achievement of mission, as well as any trends that identify strengthened institutional performance.

(Standards I.B; I.B.1-6; II.A.1.c; II.A.2.a,b; II.A.2.f-i; II.A.5; ER 10-Student Learning and Achievement) |
