PROGRAMS & FACILITIES HIGHLIGHTS 1973-2013

- 1973 Groundbreaking
- 1975 New Campus
- 1977 Enrollment 2002
- 1983 Science Labs Empty - moved to KTD
- 1985 All English, Art and Dance moved to KTD
- 1987 Auto & welding moved to IVC
- 1984-86 Campus Closed
- 1987 IVC Re-opened: enrollment of 3313
- 1996 Digital Village Multimedia Incubator Launched
- 2003 MSAT Opened
- 2005 All-time enrollment low of 769
- 2006 Measure C Bond Passed
- 2007 MSAT Concluded
- 2007 Organic Farm & Garden
- 1985-2005 Course offerings for General Education were limited: 1985—2005 course offerings for General Education were limited almost exclusively to the KTD campus.

During the period of 2005 to 2010 revitalization of workforce programs and resurgence of enrollment at IVC led the District and Board to reconsider how IVC facilities could be optimized.

In 2011, after dedicating the Transportation Technology Complex and new Main Building, use of the Ohlone cluster for classes was discontinued.

Those partnerships thrive and have supported a four-fold increase in students in the Environmental Landscape program. UCCE Master Gardeners include participation by hundreds of volunteers every year. The MCOC partnership continues and serves about 20-24 students each year. The shared use agreement with the City of Novato for the athletic fields is in effect thru 2036. Head Start partnership is thriving.

The last visioning presented to the board in 2006 identified several programs to develop at IVC including programs promoting sustainability, technology, health & wellness, expansion of Allied Health (including Dental Assisting) Auto Tech—to include emerging fuel technologies, Early Childhood Education, Intensive English & ESL, Community Education and offering full sequence of English, Math, and creation of an IVC General Education blueprint. These recommendations have been implemented and continue to grow.

During the period of 2005 to 2010 revitalization of workforce programs and resurgence of enrollment at IVC led the District and Board to reconsider how IVC facilities could be optimized.

In 1973, Indian Valley College campus was dedicated then closed from 1984 to 1986 to correct construction deficits.

1985 the College of Marin merged with Indian Valley College to become the current Marin Community College District as one college with two campuses.

Prior to the IVC campus closure all Fine Art, English, Performing Arts and Science classes were moved to the KTD campus and the Auto and Welding classes were moved to IVC.

In 1985—2005 course offerings for General Education were limited almost exclusively to the KTD campus.

The 2004 Facilities Master Plan called for the District to “develop the Indian Valley Campus as a specialized educational park to complement the Kentfield Campus and enrich the District through increased use of existing facilities”.

The plan for the educational park was implemented. The partnerships with Charter School—MSAT, SF State and the Simulation Center have concluded. Partnerships still in effect include the very successful Organic Farm, founded in partnership with the Conservation Corps and UCCE continue.

Indian Valley College to become the current Marin Community College District as one college with two campuses.

No strategy to maintain buildings in use, such as the Miwok and Administrative clusters was developed. That resulted in continued deterioration. Leaking roofs and HVAC systems are impacting District’s students.

The 2004 Facilities Master Plan called for the District to “develop the Indian Valley Campus as a specialized educational park to complement the Kentfield Campus and enrich the District through increased use of existing facilities”.
