Student Access/Success Committee

Charge

The Student Access/Success Committee operates as a subcommittee of the Planning and Resource Allocation Committee to review plans and institutional data and trends and assess how well the college is achieving equitable student outcomes and eliminating barriers to diversity in order to inform the college and build institutional awareness around these issues.

Responsibilities

The Student Access/Success Committee will review institutional and state data related to student access and success in order to develop recommendations for improvement.

The Student Access/Success Committee will have specific responsibility for reviewing any state-mandated plans and regulations concerning matriculation processes and student equity, plans funded by the Basic Skills, and other plans required for categorically funded student services programs (including EOPS, DSPS, CalWorks and others).

The committee will analyze the section of the full Program Reviews related to student retention and success in order to determine trends and provide supporting materials to the Planning and Resource Allocation Committee to inform decisions related to resource allocations to improve student access and success.

In addition, the committee will be a resource to and provide support for the efforts of the College of Marin Student Success Initiative.

Composition

2 faculty appointed by the Academic Senate including one counselor and one instructional faculty member
2 classified staff appointed by the official classified staff appointing body.
2 students appointed by ASCOM
2 administrators appointed by the Superintendent/President

The Chair or Co-Chairs will be elected from the group.
