Technology Mediated Learning and Distance Education Program Facilitator
40% assignment (6 units)

This position will also be responsible for working with administration, departments, faculty and staff to facilitate, promote and develop appropriate methodologies and pedagogy for technology mediated learning. This assignment includes supporting faculty development, online and hybrid modes of teaching, learning, and assessment across the college.

- Promote fluency and skills across the college in online technologies and media delivery;
- Work across college departments with practitioners of a wide range of academic disciplines and in student support services to facilitate best practices in online course designs and pedagogies;
- Evidence of commitment to faculty-strengthening programs/activities, particularly as related to best practices in technology mediated learning including online and hybrid education models.
- Familiarity with the college’s learning management system (Moodle), and with broad infrastructure and troubleshooting concerns tied to online and hybrid delivery modes.
