Chailin & Sara

Here are the updates for the SLO section of our October report to WASC. Feel free to eliminate anything that we have already told them we did.

1) Faculty in specific disciplines were identified to work on GE/Degree SLOs using the GE/Degree/Certificate matrix. This included:
   * Anthropology
   * Art
   * Communications Studies
   * Computer Science
   * Dance
   * Drama
   * English
   * Film Making
   * French
   * Mass Communications
   * Music
   * Physical Education & Health
   * Political Science
   * Psychology
   * Screenwriting
   * Sociology
   * Spanish

   * Indicates that instructors in these programs have been identified and are receiving a stipend to prepare the matrix and will work with members of their discipline to complete the pre and post tests, prepare final reports and work with the SLOAC committee to make revisions/improvements to the process before spring semester.

2) Department chairs met with the Academic Senate President to review the matrix and the schedule for disciplines responsible for GE/Degree SLOs.

3) The SLO facilitators, worked with discipline faculty who are completing a schedule for assessing SLOs for the identified courses. Instructors teaching these courses, are currently working to determine which of the College-Wide/General Education SLOs will be assessed in each course and which courses will be assessed which year.
4) The Program Review template for instructional programs was revised to include questions that address the first four College/GE Learning Outcomes. Faculty are in the process of completing program reviews.

5) Program/discipline faculty are using the rubrics for pre and post tests. This data will be reported to PRIE in December and the findings will be reported to the full faculty at convocation in January 2012.

6) Faculty and administrators were invited to a meeting (10/6/11) to review the data from spring 2011 for the college wide SLOs. Discussion resulted in recommendations for improvement of the reporting and for a presentation to be held during spring 2011 convocation.

7) Data will be used to improve student performance, and make requests for the in-class and out-of-class support necessary to meet student needs. Requests stemming from GE SLO findings will be reported as a part of the program review process spring semester 2012.

8) Check with Becky Reetz for additions about student services SLOs.
