Demographic, enrollment and student success information is available in the Data Dashboard which can be accessed through ARGOS. Please use this information and your faculty’s own anecdotal experience to answer the following questions.

II. Student Success
Based on course completion rates and grades in your courses (available on the Data Dashboard), and more importantly, based on you and your colleagues experiences in class, what do faculty in your discipline feel are significant factors or barriers influencing student success in your courses or programs? Please begin with: Students who don’t succeed often struggle with________,” and then analyze what you think are the reasons behind their difficulties which could range from socio-economic factors to issues more directly related to course work or presentation.

III. Improving student success and retention
Please check off which of the following student support services your students used:

- Library
- Counseling
- Tutoring
- Computer Labs for student use
- Bookstore
- DSPS
