COM Data Dashboard
Planning, Research and Institutional Effectiveness
What is COM Data Dashboard

- Contains research and statistics on:
  - Student Demographics
    - Student Enrollment
  - Student Achievement
    - Course Retention
    - Course Success
    - Cohort Tracking
    - Student Persistence
    - Degrees/Certificates Awards
    - Program Review
How can Data Dashboard be used? Examples

• The Data Dashboard contains demographic data and passing rates for courses at College of Marin, and is accessible through the intranet.

• Data Dashboard can permit a snapshot of which students are enrolled in the course so that instructors can be aware of instructional modifications they may wish to make to maximize effectiveness.

• The Dashboard can also be used to encourage data-driven discussion among instructors around reaching particular groups of students.
